# Akash Yadav

--

Gurugram, Haryana, India

## Summary

Dynamic Full Stack Web Developer with expertise in the MERN stack, dedicated to delivering high-performance web applications. In my recent position as a Frontend Developer, I developed production-level.

features and actively contributed to backend tasks, demonstrating my ability to work across the full stack.

Skilled in RESTful API design, database optimization, UI/UX enhancements, and SEO strategies, I bring a collaborative spirit and good problem-solving abilities for every project.
